**SUBJECT: Channel Maintenance, Back Chute of Bridgeport Island, Mile 417.2  
Tennessee River**

Scott Bridge Company will begin channel maintenance activities in the back chute of Bridgeport Island on 16 August 2004. Activities will include removal of rock peaks from the access channel to US Gypsum dock facility. It is anticipated that most of the obstructions can be removed through mechanical means and minimal explosives will be needed. Activities are scheduled to take approximately 90 days to complete.

Operators should use caution when transiting this area.
